

Aditya Rathore

Experience

Matelabs, Data Scientist, Developed and deployed auto preprocessing steps of machine learning mainly missing value treatment, outlier detection, encoding, scaling, feature selection and dimensionality reduction., Deployed automated classification and regression model., Research and deployed the time series forecasting model ARIMA, SARIMAX, Holt-winter and Prophet., Worked on meta-feature extracting problem., Implemented a state of the art research paper on outlier detection for mixed attributes.

Education

B.E, UIT-RGPV, 2013-05, 2017-05

Skills

Python, Less than 1 year, Statsmodels, 12 months, AWS, Less than 1 year, Machine learning, Less than 1 year, Sklearn, Less than 1 year, Scipy, Less than 1 year, Keras, Less than 1 year

Certifications
