erin60@example.net | (611)716-1641 | Paulbury | Jordan

# **Experience**

Zuniga-Pineda, Technology, Medium, Cybersecurity Engineer, junior, contract, 2019-09-16, 2024-08-01, N/A, Conducted system monitoring and performance tuning., Optimized application performance and improved user engagement., Built and maintained scalable web applications., Enhanced system security and performed regular audits., Kubernetes, REST, Git, Agile, GitLab, Git, Smith-Ward, Technology, Large, Cybersecurity Engineer, junior, internship, 2022-01-09, 2023-07-17, N/A, Optimized application performance and improved user engagement., Implemented RESTful APIs and microservices., Created user-centric designs and responsive web interfaces., Git, Agile, GraphQL, CI/CD, Edwards-Thomas, Technology, Small, Cybersecurity Engineer, junior, internship, 2019-12-29, 2023-10-28, N/A, Designed and implemented machine learning models., Implemented security best practices and data protection measures., Implemented RESTful APIs and microservices., Managed cloud infrastructure and resource allocation., Docker, Git, CI/CD, Kanban, GitLab

#### Education

MSc, Computer Science, Cybersecurity, Vargas and Sons, Jimmyville, N/A, 2016-10-09, 2020-03-30, 2.86, Dean's List, Network Security, Software Engineering, Database Systems, Advanced Algorithms, MSc, Computer Science, Cybersecurity, Klein-Joseph, Sullivanville, N/A, 2015-08-18, 2020-10-27, 2.52, Magna Cum Laude, Distributed Systems, Software Engineering, Machine Learning

## **Skills**

JavaScript, beginner, C++, beginner, Python, intermediate, Spring, intermediate, React, intermediate, Flask, beginner, MySQL, intermediate, Oracle, intermediate, AWS, expert, English, fluent

# **Projects**

Cybersecurity Engineer Project, Conducted security assessments and implemented security controls, reducing security vulnerabilities by 60% and enhancing system security., Java, Git, Ruby, GraphQL, Cybersecurity Engineer, https://www.cole.com/, If risk expert list recognize offer head friend analysis member again measure.
